

Personal Essay Statement

I am writing this application in request for admission in your prolific institution. I am a fresh graduate from Chartiers Valley School district in Allegheny County, Pennsylvania. I graduated from the school in June 2009. Upon graduation from the school, I had achieved various accomplishments during the time I was a student at the institution. Some of my accomplishments during the period are as follows. First, I was able to receive a community service award for having had the most number of community service hours of my graduation class. I will send the certification alongside this application. Also included in this application are my relevant transcripts while in my former school.

My secret for the attainment of the highest number of hours was the fact that I was a volunteer firefighter throughout my high school life. It was the most challenging task having to work during school and at the same time maintaining good grades. I therefore had to work so hard. As I make this application, I am joining the army national guard. In this new role, my job will entail intelligence analyst. The proceeds from the job are going to be the source of income to pay for my degrees in criminal justice and forensic science. My experience as an active wrestler throughout middle school as well as the high school will come in handy through my course and my job. My persistent desire is

that I want to be the best student in your institution just like I have been. I therefore will work harder to achieve this. My acceptance into the university will go along way into making my dreams come true. I will highly appreciate your acceptance of my admission into the university. Thank you.
